## MXFX Equipment Rentals cc

**MXFX** is a Special Effects Design Operation and Rental Company. MXFX is headed by Max Poolman (a qualified Pyrotechnician), who has 27 years experience in the Film and Effects business.

The company works out of a fully equipped light engineering workshop and a fully stocked SFX store. This enables us to “manufacture” rain, wind, snow and fire. If it needs to be bigger, or more reliable than nature, we can build it. Our free-lance Special Effects crew, of approximately 30 people ranging from qualified Fire Fighters, Divers as well as Skilled SFX Technicians, can be called at any stage to work on various projects.

We have built various rigs for the many international commercials that have come to Cape Town and while bigger-better-faster-more is the way we work, safety is always the overriding factor.

Besides the many international commercials that we have successfully completed, we have also supplied effects for the following productions; recently:

●	<u>GLAMOUR AND GLORIA</u>	Director: Dr Dieter Wedel Production Company: Two Oceans Production	MAR '09
●	<u>KENNEDY'S BRAIN</u>	Director: Urs Egger Production Company: Do Productions	MAR '09

..... but to name a few....

The following will give you a basic idea of the equipment we have at our disposal:

- ☛ Various electric and gas smoke machines (all to international safety specifications)
- ☛ Rain bars 100ft and 30ft, with pumps and reservoirs

- Wind Machines; from Mole Richardson Fans to VW's on trailers
- Snow, Fog and Bubble Machines
- Air Cannons (pigs); from 2lts to 500lts
- Heat Hazes of various sizes
- Water Tankers, Water Curtains
- Various propane rigs: metal logs, fish tails, gas explosions.
- The list is endless....

In our Cape Town summer advertising season we generally work on well over 200 commercials in various forms and guises.

We are a group of enthusiastic, multitalented individuals who comprise a safe and dynamic team. We are always current with international health and safety trends.
